

Dividend Rate Information: The Dividend Rate (Rate) and Annual Percentage Yield (APY) on your account are set forth above and are accurate and offered as of the effective date. The APY measures the total amount of dividends to be paid on your account based on the rate and the frequency of compounding for an annual period. The rates and corresponding APY on those checking or savings accounts as categorized above are variable and may change at any time at the discretion of the Board of Directors. All certificates, except the three-year variable rate certificate, have fixed rates and will be paid the rate and APY for the stated term of the account. See “Bump Rate Feature” for more information on our three-year variable rate certificate. Regular Savings, Essential Checking, Ultimate Checking, and HIMMA accounts earn dividends on a tier rate method. These accounts will be paid the stated Rate and APY that corresponds to the applicable deposit tier on the full balance in the account for the dividend period.

Compounding and Crediting: Dividends will be compounded and credited as set forth in the above schedule. The Dividend Period for each account is also set forth above. The Dividend Period begins on the first calendar day of the period and ends on the last calendar day of the period. For Savings and Checking accounts, dividends are paid on the first calendar day following the dividend period. For Certificates, dividends are paid either on the last calendar day of the period or at maturity, as applicable. Certificates with a term of less than one year do not offer compounding since dividends are paid at the end of the dividend period, which is the stated maturity.

Balance information: The minimum balance required to open an account and/or the minimum balance required to maintain an account are set forth above. The minimum balance required to avoid a service charge is also set forth above. All accounts shown above use the Actual Daily Balance Computation Method. Dividends are calculated by applying a daily periodic rate to the principal balance in the account each day. The par value of a share in this credit union is \$5.00.

Accrual of Dividends: Dividends will begin to accrue on both cash and non-cash (e.g. checks) deposits on the business day you make the deposit to your account. Refer to other disclosures regarding our Funds Availability Policy.

Nature of Dividends: Dividends are paid from current income and available earnings after required transfers to reserves at the end of the Dividend Period. The Rate and APY are the prospective rates and yield that the credit union anticipates paying for the applicable Dividend Period.

Transaction Limitations: Any limitations on the number or dollar amount of withdrawals or deposits are set forth above. The HIMMA account is limited to no more than six (6) preauthorized, automatic, or telephone transfers to another account you own or to a third party during the month. If you exceed these limitations, your account may be subject to a fee or be closed. Certain withdrawals from an Individual Retirement Account (IRA), prior to reaching age 59 1/2, may be subject to an IRS penalty of 10% plus taxation of the amount withdrawn. Withdrawals at an Automated Teller Machine (ATM) on accounts accessible via a Debit/ATM card are limited to \$500.00 per day in the US and \$600.00 per day in the U.K. Deposits to Certificate Accounts are permitted only at renewal except for the FirstStep Certificate, which is allowed a minimum \$10.00 deposit anytime during the term.

Fees and Charges: Any fees and charges that may be assessed against your account are disclosed separately in the fee schedule provided elsewhere in this brochure.

Additional Disclosures Specific to Certificate Accounts:

Early Withdrawal Penalties: The credit union will impose a penalty if you withdraw any of the principal in your Certificate account before the maturity date.

- A. If the withdrawal does not reduce the certificate funds below the required minimum balance for this type of certificate, the member shall forfeit at the certificate rate an amount equal to the lesser of:
 1. All dividends for 90 days from the amount withdrawn for certificates with a term of 1 year or less; or all dividends for 180 days on the amount withdrawn for certificates greater than 1 year; or
 2. All dividends on the amount withdrawn since date of issuance or renewal.
- B. If the amount withdrawn reduces the certificate funds below the required minimum balance for this type of certificate, the entire certificate will be canceled and the member shall forfeit at the certificate rate* an amount equal to the lesser of:
 1. All dividends for 90 days on the entire amount of the certificate if the certificate is for a term of 1 year or less; or all dividends for 180 days on the entire amount of the certificate if the certificate is for a term of 1 year or more; or
 2. All dividends on the entire certificate since the date of issuance or renewal.

* The term “certificate rate” also includes the “bump rate”, if applicable, when calculating the early withdrawal penalty.

A penalty will not apply if the withdrawal is made subsequent to the death of any owner of the certificate.

Withdrawal of Dividends Prior to Maturity: The APY is based on an assumption that dividends will remain in the account until maturity. A withdrawal will reduce earnings. At your option, however, you may have accrued dividends paid out of the account either at maturity or monthly for certificates of less than one year, and either monthly or quarterly for certificates with a term of one year or more except for the FirstStep Certificate on which dividends will be credited to the account. Withdrawal of dividends may be made either by deposit to your Regular Share or Checking account.

Bump Rate Feature: Our three-year variable rate certificate offers a “bump rate” feature. At any time during the term of the certificate you may, at your discretion, “bump” or increase the rate paid on your certificate to the then current rate being paid on three-year variable rate certificates. This new rate will remain in effect for the remaining term of your certificate. This feature is available only once per three-year term.

Renewal Policy: Your certificate will automatically renew at maturity. This means that unless you notify us to the contrary, your certificate will be renewed for the same original terms at the then current dividend rate and corresponding APY. You will have a grace period of 10 calendar days after the maturity date to withdraw the funds in the account without being charged an early withdrawal penalty. At least 30 days prior to maturity, we will provide you with disclosures applicable to the renewing certificate and inform you of your option to (1) allow the certificate to renew, (2) change the terms of the certificate, or (3) redeem the certificate.

Non-transferable/Non-negotiable: Your Certificate is non-transferable and non-negotiable. The funds in your certificate may not be pledged to secure any obligation of an owner, except obligations with the Credit Union.

DEPOSIT ACCOUNT FEE SCHEDULE

This schedule outlines the fees that are applicable to your account(s) as identified. This schedule is incorporated as part of your account agreement with Keesler Federal Credit Union.

SERVICE	DESCRIPTION	FEE AMOUNT
Copy/Retrieval	Copy of original or substitute check (Checking or HIMMA) Copy of Money Order or Cashier's Check Copy of account statement (all accounts) Activity/History Printout	\$2.00 per copy \$2.00 per copy \$2.00 per statement \$1.00 per page
